

## Our Mission

To enrich the quality of life for children and adults with disability through outdoor recreation.

## WHO WE ARE

**Our beginning:** The Outdoors for All Foundation was first incorporated as a nonprofit organization in 1979, then known as the Ski for All Foundation with 35 students at The Summit at Snoqualmie. We've expanded programs to continue enriching the quality of life for children and adults with disabilities in the Pacific Northwest ever since.

**Our vision:** For people of all abilities to be able to recreate whenever and wherever they choose.

**Our team:** We deliver our mission with the leadership of 16 year round staff, 18 board members, and the support of over 700 active volunteers.

Outdoors for All is a 501(c) (3) nonprofit organization and consistently returns 75 cents of every dollar donated directly to programs and services.

# OUR PROGRAMS

- Include typical NW outdoors activities like winter sports, cycling, rafting, camping, water-skiing, rock climbing, day camps and more!
- Our goals: Outdoors for All programs are designed to promote fitness, education, independence, socializing, a love of the outdoors and of course are a lot of fun!
- Who We Serve: participants at Outdoors for All have a variety of disabilities including sensory, physical, and developmental disabilities and range in ages 5 – 101+.

# FALL PROGRAMS/ EVENTS

# Participant Thank You -

Dear Outdoors for All Donors:

Thank you very much for your generous donation. This is the second year our son has participated in the Outdoors for All program with snowboard lessons.

He has asked how long it is until snowboarding starts so many times that I have lost count. He can hardly wait until he can get back to the mountain. Our entire family loves the outdoors, we all ski or snowboard. We knew that we wanted to put our son into lessons, but knew that traditional lessons would never work. When we discovered the Outdoors for All program we decided to give it a try. This was the best decision we made. Our son thrived in the lessons. Not only did he learn how to snowboard, but also his self-confidence and self-esteem grew so much as a result of the lessons.

The volunteers were all well trained and truly committed to making this a great experience for all of the participants and their families.

Outdoors for All program has also helped our entire family. Up until now when we went to the mountain I would spend the day playing in the snow with my son, while my husband and older son skied. Last year for the first time I was able to ski. We look forward to the day when we can ski/snowboard as a family.

Again, thank you for your support of this valuable program.
